Signin component > index.js

Signin component > index.css media queries

I had to do a lot of 'querying' to get the signin object to align vertically for smaller devices. The transitions aren't completely smooth but at no point does the app 'go off the rails.'

Here is the query css.

Mobile portrait

Footer index.css

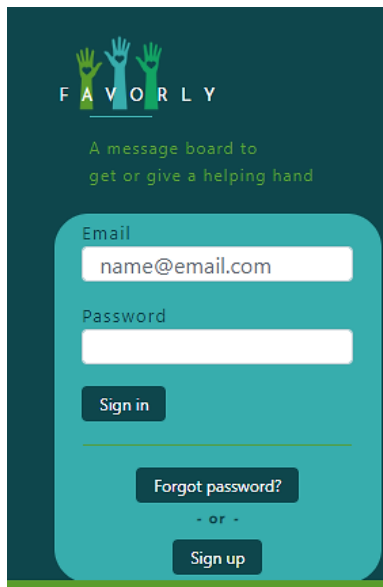

I needed to make some changes to the page footer, including media queries for mobile devices. The original footer obscures the 'signup' button and is too wide for small screens.

Here are the changes with the updated color scheme and media queries.

```
lient > src > components > footer > # index.css > ...
1  #myFooter {
2  |   background-color: #599c2b;
3  |   padding: 10px;
4  |   font-size: 0.75em;
5  | }
6  .social {
7  |   padding-right: 10px;
8  |   font-size: 2em;
9  | }
10 #footerRow a, .name {
11 |   color: white !important;
12 | }
13 .name {
14 |   margin-bottom: 0px;
15 | }
16
17 /*--- Mobile portrait footer---*/
18 @media only screen and (min-width : 259px) and (max-width : 480px) {
19 |   #myFooter {
20 |     background-color: #599c2b;
21 |     padding: 1px;
22 |     font-size: 0.1em;
23 |   }
24 |   #footerRow a, .name {
25 |     color: #599c2b !important;
26 |   }
27 | }
28 /*--- Mobile landscape footer---*/
29 @media only screen and (min-width : 481px) and (max-width : 595px) {
30 |   #myFooter {
31 |     background-color: #599c2b;
32 |     padding: 1px;
33 |     font-size: 0.1em;
34 |   }
35 |   #footerRow a, .name {
36 |     color: #599c2b !important;
37 |   }
38 | }
```
